PROFESSIONAL SUMMARY

Digital content creator with 20+ years in graphics, video and campaign content across Oman, India, the UAE and Saudi Arabia, currently full-time at EV Auto Show, Riyadh. I build websites, online stores and automation workflows with AI (Claude, n8n, Lovable), and I have run Meta ad campaigns and cash-on-delivery store operations hands-on.

CORE SKILLS

- **Content and video:** campaign visuals, motion graphics, video editing, social content, event promo material (Adobe Photoshop, After Effects, Premiere Pro, Illustrator)
- **E-commerce and ads:** store setup and migration, Meta ads, cash-on-delivery order confirmation, shipping (Shiprocket, iThink Logistics), Razorpay and PayPal checkout, SEO
- **AI and automation:** n8n workflows, Claude and Gemini, AI-written replies with duplicate protection and logging
- **Web:** websites and web apps built with AI assistance (Lovable, React, TypeScript, Supabase), Shopify, Netlify
- **Audience growth:** YouTube and Facebook content, vidIQ, Google Search Console

EXPERIENCE

Digital Content Creator, EV Auto Show, Riyadh · Dec 2022 to present · full-time, hybrid (remote from India, on site in Riyadh during the show)

- Create campaign visuals, motion graphics, promo videos and social content for each edition of a Saudi electric-mobility show.
- Produce seasonal and event campaigns published on LinkedIn: Ramadan, Eid, Saudi Founding Day, Saudi National Day and World Environment Day.
- Currently producing 9:16 promo videos for the 5th edition (12 to 14 April 2027, Riyadh International Convention and Exhibition Centre).

Project Partner, Connect Spot Exhibitions (Saudi Arabia) · ongoing

- Built the website for a Saudi-based exhibitions organiser and support its event digital campaigns.

Project Partner, Sustainable Mountain Development Summit 2026 · 2026

- Built the official website for the 14th edition, held 12 to 14 October 2026 at SKUAST-K, Srinagar.

Web and E-commerce Projects, A.T. International · ongoing

- Built and manage two e-commerce stores (ShopyFair), an AI resume tool (HiringBot), a digital planner store (DigitalFinds) and an invoicing app in development (Fatura). Details under Selected projects.

Digital Marketing Intern, CyberShield Technologies, Noida · Jun to Nov 2022

- Ran Quora marketing campaigns, writing answers that drove targeted traffic and brand visibility.
- Designed graphic announcements for the company's services and products on its website.
- Completed together with the Advanced Digital Marketing course at the Institute of Digital Studies.

Digital Content Creator and Graphics Designer, University of Technology and Applied Sciences, Ibra, Oman
Jun 2008 to May 2022 (14 years)

- Produced website content, banners, video presentations and animated event openers; designed posters, rolling banners and book covers.
- Edited the official newsletters “Technocrats” and “ICT Feed”.
- Planned and designed material for Graduation Day, Open Day and Sports Day, and ran workshops that helped students build job-search skills.
- Recognised with 5 Valuable Staff Awards and 2 Promising Staff Awards.

Early career: web, graphics and multimedia · Jan 2001 to May 2008

- Web design, graphics and multimedia roles in Srinagar and Muscat (Elite Software Services, Magnum Software Services, Dream Valley Trading, Aljury Co. LLC): websites, brochures, banners, posters, interactive programs and video presentations.

SELECTED PROJECTS

- **SpaceStallionX comment responder (n8n and Claude).** Workflow that filters spam and repeats, writes a short AI reply, posts it and logs it. 1,100+ replies posted on YouTube with duplicate-reply protection; the YouTube version now runs on Claude.
- **SpaceStallionX channels.** Space-science content on YouTube, Facebook and Instagram: 26K subscribers, 677 videos, 3.9M+ YouTube views and 255K+ Facebook views.
- ShopyFair.in**.** Cash-on-delivery store for Islamic products: Meta ad campaigns, order confirmation calls, shipping with Shiprocket and iThink Logistics, 40 orders to date. Migrating from Shopify to a custom-built site.
- ShopyFair.co.in**.** Store for premium honey, saffron, spices and dry fruits, built on Lovable (React, TypeScript, Supabase). Launched July 2026.
- HiringBot**.** AI resume-tailoring tool with 9 country-specific resume formats, Razorpay and PayPal checkout and an admin panel. In beta with testers in the US, UK, Canada and Germany.
- DigitalFinds**.** Digital planner storefront with five fillable PDF planners built from scratch. Speed work cut blocking time by 84% and bundle size by 33%.
